Polisetty Teja Sairama Sathvik

Portfolio | GitHub | LinkedIn | polisettysathvik@gmail.com | +91 6281254968

Professional Summary

Computer Science undergraduate and Software Developer with hands-on experience in **full-stack development, REST APIs, cloud technologies, and AI/ML applications**. Proficient in **Java, Python, JavaScript, React.js, Node.js, SQL, AWS, and Generative AI**, with experience building, testing, debugging, and deploying scalable software applications.

Experience

Web Development Intern – Elevate Labs **May 2025 – Jun 2025**

- Developed responsive full-stack features across 3+ application pages using HTML, CSS, JavaScript, REST APIs, HTTP, and Git.
- Performed API validation, testing, debugging, code reviews, and deployment workflows; received a **Best Performer Award**.

Research Intern – Justice-GPT Project, SRM University **Jun 2025 – Aug 2025**

- Developed reusable React components for an AI legal assistant that processes crime descriptions and identifies potentially relevant IPC sections.
- Integrated Gemini API using structured JSON responses, input validation, response parsing, exception handling, and API debugging.

Python Development Intern – CodexIntern **Sep 2025 – Oct 2025**

- Developed modular Python applications using OOP, Data Structures, Algorithms, File Handling, and reusable functions.
- Implemented exception handling, input validation, debugging, and structured problem-solving practices to build maintainable programs.

Projects

Justice GPT – AI Legal Assistant GitHub

React.js, JavaScript, Tailwind CSS, Gemini API, REST APIs, JSON

- Built an AI-powered legal assistant that processes user-provided crime descriptions and identifies potentially relevant IPC sections using Generative AI.
- Integrated Gemini REST API with structured JSON parsing, input validation, error handling, and responsive React-based interfaces.

Crop Disease Detection – Deep Learning GitHub

Python, CNN, Deep Learning, Image Processing, Machine Learning

- Developed a CNN-based image classification pipeline to identify crop diseases from plant leaf images using deep learning and computer vision.
- Implemented image preprocessing, model training, classification, validation, and performance evaluation workflows in Python.

Smart Home Automation System GitHub

Python, JavaScript, Speech Recognition, Automation

- Built a voice-controlled automation system that processes speech commands and executes appliance-control actions through command-processing workflows.
- Implemented real-time command interpretation, validation, exception handling, and automation logic using Python and JavaScript.

Smart Grievance Management System GitHub

React.js, Node.js, AWS Lambda, DynamoDB, API Gateway, Cognito, S3

- Developed a full-stack grievance platform supporting complaint registration, authentication, complaint tracking, and status management.
- Designed serverless backend workflows using AWS Lambda, API Gateway, DynamoDB, Cognito, and S3 for API processing, data storage, and authentication.

Technical Skills

Programming Java, Python, C++, C, JavaScript, TypeScript, SQL
Frontend React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend / APIs Node.js, Express.js, Flask, REST APIs, HTTP, JSON, API Integration
AI / ML Machine Learning, Deep Learning, CNN, Computer Vision, Generative AI, Gemini API, Prompt Engineering
Databases / Cloud MongoDB, MySQL, DynamoDB, SQLite, AWS Lambda, API Gateway, Cognito, S3
Developer Tools Git, GitHub, Postman, VS Code, Testing, Debugging, Deployment
Core CS Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Education

SRM University-AP – B.Tech in Computer Science and Engineering **2023 – 2027 — CGPA: 8.18/10.0**

Certifications

Java SE 17 Developer | AWS Cloud Practitioner
